December 22<sup>d</sup> Friday N/527  
At 7 o'clock took our anchor and put to  
Sea Wind ~~W~~ ~~SW~~ Pilot left at 10 o'clock  
all sail set bold enough

Saturday 23<sup>d</sup> Dec

Strong breeze from north steering S by E  
Middle to latter from ~~SW~~  
Lat ~~38~~ 38-45 Long as per course

Sunday 24<sup>th</sup> Dec

Moderate from ESE heading Sward  
Blowing and Raining <sup>hard</sup> lying too under a close  
Reef Main Topsail & Reef fore sail Wind  
Moderated a little and a prodigious sea running -  
Set a double Reef fore Topsail too keep her  
Steady in 10 minutes after Wind shifted to  
NW & blew a Horrible Gale kept her  
Before the wind could ~~not~~ carry her Boats -  
blew up fore Topsail & fore sail & left  
to the wind, could not furl them; & came down -  
Stove Starboard Boat Secured her at last -  
Then went up furl her sails, ~~but got down~~  
~~not down~~ Busses got a drift and cut the  
Mainmast very Bad at 7 am not so much wind  
keep her away S by E Saw a Ship lying too  
under main spinnaker, in the gulf all this  
Gale - latter blew some squalls  
Got No Lot

& night sound 32 fathoms yellow  
gr. br. B. & petr. int. i post 3 + 30 f. Sound  
first time sound 33 fathoms

Home

The first time I saw  
 the little white bird  
 was on the 27th June  
 when it was about  
 300 ft. from the  
 shore. It was flying  
 over the water and  
 I saw it first.
